

ADVANCE NOTICE OF ELIMINATION OF SERVICES

Coalinga Regional Medical Center (CRMC) regrets to inform its community of the pending closure of all of its healthcare services. CRMC is unable to continue in business with its weak financial condition.

CRMC anticipates that final closure for all of its healthcare services will be on/before June 15, 2018. Some healthcare services may close earlier than June 15, 2018 because employee/physician staffing and vendor support may not be available. If this occurs, public notices will be distributed and posted.

The hospital is licensed for a total of 24 acute care and 99 distinct part skilled nursing beds. The closure of the hospital will result in the elimination of all services, including, but not limited to, all inpatient acute care services and resident skilled nursing care, the hospital's Mobile Unit-MRI, Occupational Therapy, Surgery, Physical Therapy, Respiratory Care Services, Speech Pathology, Emergency Medical Services, and outpatient services provided at Coalinga Regional Medical Center, 1191 Phelps Ave. Coalinga, CA 93210; Coalinga Regional Medical Center Rural Health Clinic, 1165 Phelps Ave. Coalinga, CA 93210; Ralph Neate Extended Care Center; 834 Maple Rd. Coalinga, CA 93210.

We anticipate that the hospital's closure will result in the decrease of approximately 200 personnel.

- The following are the three nearest available hospitals that also serve Medicare and Medi-Cal patients and provide emergency services and other services comparable to those being eliminated at Coalinga Regional Medical Center:

Adventist Health Hanford
115 Mall Dr.
Hanford, CA 93230
